INTEGRATED MANAGEMENT SYSTEM POLICY

MRI is an Australian company operating from four sites, located NSW, VIC, QLD, and ACT with 20 years' experience in end of life first use to end of life management including computer recycling and electronic waste solutions. We have a world class environmental focus, achieve best practice recycling outcomes and maximise returns to our clients and the environment. We specialise in recycling end-of-life televisions, computers, monitors, printers, other electrical equipment and batteries.

MRI is committed to maintaining accreditation of the following management systems:

- **AS/NZS 5377** Collection, storage, transport and treatment of end-of-life electrical and electronic equipment. AS/NZS 5377 covers requirements for collection and storage facilities, recovery for reuse from end-of-life electrical and electronic equipment, requirements for transportation and requirements for the treatment of end-of-life electrical and electronic equipment using the 'cradle to grave' approach to ensure re-use of components and reduced waste to landfill.
- **ISO 14001** Environment Management System. ISO 14001 sets out the criteria for an environmental management system. MRI is committed to our environmental responsibility; such as resource sustainability, prevention of pollution, climate change mitigation and minimization of environmental impact.
- **AS/NZS 4801** Occupational Health and Safety Management Systems. AS/NZS 4801 specifies requirements for an occupational health and safety management system (OHSMS), our goal is to provide a safe working environment free of hazards or risks.
- **ISO 9001** Quality Management Systems. ISO 9001 Quality Management ensures MRI's products and services meets a high level of quality; that is reliable, safe, consistent, meet customer expectations, continuously improve and comply with the law.
